Hand-operated food slicer manus³

Item No. 107.000 / GTIN 40 04822 10700 4 / PU 2 / PU-GTIN 40 04822 00002 2

Details

- manually operated
- food sliced from left to right
- full metal construction
- silver metallic
- serrated circular blade, 17 cm Ø
- slice thickness adjustable up to approx. 20 mm
- detachable carriage made of stainless steel
- carriage way approx. 20 cm
- smooth metal crank with high quality plastic handle
- stainless steel bracket to guide food slices
- feet made of steel
- four high-quality suction feet for a non-slip and solid footing
- warranty: 2 years*
- product made in Germany

Technical Details

- TÜV-Rheinland/GS
- dimensions: width 36.5 cm height 25.0 cm depth 33.5 cm
- weight: 3.3 kg

manus³ hand-operated food slicer

- Back to the crank

Robust feet made of steel with suction feet ensure high stability. When you press the manus³ onto the surface, the silicone feet attach firmly and thus prevent slipping during the cutting process.

They also give the appliance an unusual design which is true to the clear Bauhaus lines of the ritter appliances.

The robust and smooth manual crank is operated with the right hand, while the carriage, including the food to be cut, is guided with the left.

For a better result of large, hard pieces during the slicing process, the manus³ is equipped with a guide bracket for the food to be sliced. This has the advantage that the evenly sliced cut food doesn't get in the way of or block continuing "crank operation".

manus³ - of course 'made in Germany', as all other products by ritter.

A smooth ham- and sausage circular blade is available for every ritter food slicer.
