winner

Electrical food slicer sono⁵
– A stylish food slicer
The full metal construction of the food slicer sono⁵ offers a high degree of stability and slicing performance. The integrated bottom panel made of high-quality, shatterproof glass gives the slicer an elegant touch. With its outstanding design slicer sono⁵ has won the Red Dot Award: Product Design 2015.

The suspended construction allows the sliced food, cut into appetizing slices, to be laid down directly onto plates and dishes. Furthermore it offers convenient and easy cleaning.

The broad-surfaced, detachable carriage allows cutting off larger pieces of food. The slice thickness can be adjusted continuously up to approx. 23 mm.

A smooth ham- and sausage circular blade is available for every ritter food slicer.
