- VDE/GS, safety category 2, CE
- dimensions: 25.5 cm height 25.0 cm
depth 37.5 cm
- weight : 3.7 kg

Electrical food slicer solida⁴

The solida⁴ slicer belongs to the product family of the test winner solida⁵ and it impresses with the same functions. It is only the construction and carriage that are different.

Like the solida⁵ test winner model, the solida⁴ is a full metal appliance with inclined position and is extremely easy to operate thanks to the circular blade cover, continuous and intermittent switch, detachable carriage with stainless steel plating, food tray and cable compartment.

Regardless of the food to be sliced, hard or soft food – with the sharp circular blade made in Solingen, Germany and the powerful 65 W eco motor everything may be cut off into evenly thin or thick slices. The 65 W eco motor is 20 % more economical but 50 % more powerful than the previous model.

A smooth ham- and sausage circular blade is available for every ritter food slicer.
