

**MADE IN
GERMANY**

Electrical food slicer icaro⁵ selected design

Details

- metal construction
- foldable supply table
- serrated circular blade, 17 cm Ø
- slice thickness adjustable up to approx. 14 mm
- safety switch for intermittent and continuous operation
- divisible carriage for space-saving storage when slicer is folded
- carriage way approx. 20 cm
- food tray
- cable compartment
- warranty: 2 years*
- product made in Germany

Technical features

- 230 V, 65 Watt eco-motor, duty cycle 5 minutes
- VDE/GS, protection class 2, CE
- width 24.0 cm (folded 10 cm) height 20.0 cm
- depth 34.0 cm
- weight: 3.4 kg

Item-No. / GTIN

silver metallic: 521.003 / 40 04822 52103 9
black: 521.034 / 40 04822 52134 3

PU / PU-GTIN

silver metallic: 2 / 40 04822 00012 1
black: 2 / 40 04822 00196 8

*The 2-year manufacturer's warranty applies to all devices sold within the European Union. Your legal warranty claims according to § 437 ff. BGB (German Civil Code) remain unaffected by this regulation. You can view the warranty conditions at <https://www.ritterwerk.de/warranty>.

Electrical food slicer icaro⁵ the pleasure of foldable slicing

The market launch of the first foldable full metal food slicer icaro⁷ might have taken place several years ago, but the popularity of the rather elegant selected design appliance has been growing steadily over the last few years. For this exact reason, ritterwerk decided to launch the icaro⁵.

This food slicer is a practical kitchen helper in full metal design that resembles its "big brother" in quite a lot of aspects: When folded up, the machine is only 10 cm wide and therefore fits wonderfully in smaller kitchens. When unfolded and ready for use, the icaro⁵ also requires little space on the worktop. Thanks to the high degree of stability and the use of high-quality materials, a long lifespan is also guaranteed here.

With the icaro⁵, it is easy to prepare even the most delicate slices, as the thickness of each slice can be adjusted as desired from wafer-thin to approx. 14 mm.

The serrated stainless steel circular blade ensures the perfect "slice". For quick and easy cleaning and to easily change the blade, it can be removed from the icaro⁵ with a coin-operated lock. The carriage can also be easily unlocked and removed, so that even oversized foods are sliced without a problem.

The switch for intermittent and continuous operation ensures extra slicing convenience and above all, maximum safety. The icaro⁵ is powered by a 65 Watt eco-motor, which is 20 % more economical and yet 50 % more powerful than its predecessor.

With this practical kitchen accessory "made in Germany", you are perfectly equipped for everyday use - slicing bread, salami, ham, vegetables and even fruit turns into a real pleasure.

A smooth ham- and sausage circular blade is available for every ritter food slicer.
