

ritter peeler

Item No. 203.025 / GTIN 400482220325 6

Details

- for right- and left-hand operation
- special mobile blade made of stainless steel
- handle made of plastic with eye remover (for finish cleaning of potatoes)
- colour: white

Technical features

- Dimensions: width 6.5 cm, height 11.0 cm
- weight: 11 g

The ORIGINAL: peeler made by ritter

Small helper, big help!

The small household help by ritter permits optimized and economical peeling, especially of asparagus, but also of other vegetables like cucumbers, carrots and potatoes. Fruit, such as pears and apples, can be peeled quickly and sparingly. The small interspace between the sharp blades allows paring to be peeled off very thinly.

The eye remover at the handle swiftly cuts out shoots or damaged spots.

The mobile special blade is well suited for both right- and left-handers.

The blade made of stainless steel is extremely durable. The handle made of plastic is ergonomic and convenient to use

Already 50 years ago, ritter had developed the prototype of this peeler, which has proved itself for many decades.

About ritterwerk:

ritterwerk was founded in 1905 by Franz Ritter. Since then the medium-sized company develops and produces household appliances which facilitate the everyday work in the kitchen.

The medium-sized company, headed by Michael Schüller, develops, designs and produces exclusively in Gröbenzell near Munich.

The company's philosophy 'made in Germany' not only stands for its production site in Germany. It also incorporates high quality standards, sustainability, appropriate materials as well as functional design, thus clearly following the 'Bauhaus' principles of the twenties.
