

# Built-in Toaster BT 10

**toaster built-in system for installation in drawers, cabinet width min. 30 cm**

prerequisite: clear width bottom of drawer > 180 mm,  
clear width top of drawer > 200 mm

The ritter built-in toaster BT 10 is 75 mm high and can thus be installed in any standard drawer, cabinet width min. 30 cm.

Opened with a flick of the wrist, it readily stands in the opened drawer. The toaster does have automatic toast food centering, defrosting and rewarming function, toasting degree with LED indication, stop button and integrated bread and roll rack.

The thermal insulated housing and the automatic switch-off function when the toaster is being folded do provide the safety required. For easy cleaning, the toaster may be removed from the drawer without using any tools.

Built-in toaster BT 10 has received the Blue Angel environment label.

Elongated slot toaster for 2 slices of toast.
