- VDE/GS, safety category 1, CE
- dimensions: width 30.0 cm height 24.5 cm depth 37.0 cm
- weight: 5.3 kg

Electrical food slicer secur⁹– Semi-professional quality appliance with practical functions for great ease of use

The semi-professional, excellent and elegant secur⁹ food slicer is simply perfect if you already have high quality kitchen equipment. For slicing bread, sausage, cheese, vegetables or fruits the secur⁹ food slicer in full metal guarantees the best slicing results, a high level of stability and long life span. A special feature is the 130 Watt DC motor that is powerful but operates quietly at the same time. The duty cycle is duplicated up to 10 minutes compared to an AC motor. Thanks to the strong DC motor, slicing is an easy task for everybody. In addition, the high-quality, easy-going metal carriage supports the ease of use. The carriage can be unlocked and removed as needed.

The switch for continuous and intermittent operation ensures particular safety. With the integrated vario electronic, the circular blade speed can be adapted to the food currently being sliced, achieving the best possible slicing result.

The appliance is equipped with a serrated circular blade with a diameter of 17 cm. The large circular blade cover ensures even better slicing results.

A smooth ham- and sausage circular blade is available for every ritte^r food slicer.

*The 2-year manufacturer's warranty applies to all devices sold within the European Union. Your legal warranty claims according to § 437 ff. BGB (German Civil Code) remain unaffected by this regulation. You can view the warranty conditions at <https://www.ritterwerk.de/warranty>.

About ritterwerk:

ritterwerk was founded in 1905 by Franz Ritter. Since then the medium-sized company develops and produces household appliances which facilitate the everyday work in the kitchen.

The medium-sized company, headed by Michael Schüller, develops, designs and produces exclusively in Gröbenzell near Munich.

The company's philosophy 'made in Germany' not only stands for its production site in Germany. It also incorporates high quality standards, sustainability, appropriate materials as well as functional design, thus clearly following the 'Bauhaus' principles of the twenties.
